Homework Do’s and Don’ts

Michael Hall
Washington University in Saint Louis
CSE567M
Expectations

- Grading basis:
  - Method
  - Correct answer

- Partial credit given based on work shown.
Do’s

- Show intermediate calculations.
- Show equations or formulas used.
- If you use a spreadsheet, print it out and turn it in with the homework.
- For Excel, set the print area and scale the page accordingly to fit to the page width (see page setup).

Golden rule: Is enough work shown that I can understand how you got your answer?
Don’ts

- Don’t provide only the answer. Otherwise, how do I know how you got it?
  - (Note, there are some questions that have simple answers. These are exceptions to the rule.)
